## PROFESSIONAL SUMMARY

---

Results-driven **Full Stack Developer** with hands-on experience in React, Next.js, Node.js, TypeScript, Golang, Solidity and blockchain technologies. Demonstrated ability to deliver scalable web solutions, develop secure APIs, and lead cross-functional teams. Passionate about building innovative products in fast-paced environments and leveraging AI, Web3, and cloud platforms to drive impact.

## TECHNICAL SKILLS

---

- **Programming Languages:** JavaScript, TypeScript, Golang, Solidity
- **Web Technologies:** React, Next.js, Node.js, Express, Tailwind CSS
- **Frameworks & Tools:** Prisma, Vite, Git
- **Databases:** MongoDB
- **Blockchain:** Ethereum, Solana, Web3.js
- **APIs:** RESTful APIs, Telegram Bot API, Figma Plugin API, Pusher

## PROJECTS

---

### EZTax Project 2025

- Built an AI-powered platform to automate tax filing, reducing manual effort for users by 80%.
- Developed both frontend and backend for generating personalized tax slabs based on salary, expenses, and bill data.
- Integrated APIs for document parsing and tax calculation, ensuring secure data handling and comprehensive reporting.
- Technologies: React, Next.js, Node.js, MongoDB, Flask, custom APIs

### Cloud Wallet Telegram Bot 2024

- Developed and deployed a secure cryptocurrency wallet Telegram bot, check balances, and process transactions.
- Integrated Web3.js and MongoDB for real-time blockchain interactions and secure data storage.
- Managed private key encryption and enforced advanced cryptography libraries to enhance security.
- Technologies: Telegram Bot API, Web3.js, MongoDB, Cryptography

### NavShiksha 2024

*Smart India Hackathon 2024 Runner-Up*

- Led the development of *NavShiksha*, a scalable software solution to improve rural education in low-bandwidth environments.

- Integrated interactive whiteboard, community features, chatbot for instant queries, and AI-powered doubt-solving, increasing student engagement by 30%.
- applied geo-location features for location-based content delivery.
- Technologies: React, Next.js, Tailwind CSS, Node.js, MongoDB, Pusher, Socket.io

## PROFESSIONAL EXPERIENCE

---

**Plugin Developer Intern**  
*Waysorted*

Apr 2025 – Present  
 Remote

- Designed and developed custom Figma plugins, gaining hands-on experience in plugin development.
- Built both UI and backend components, ensuring smooth integration within the Figma environment.
- Explored the Figma Plugin API and contributed to improving user experience through intuitive plugin features.

**Full Stack Web Development Intern**  
*IUP IFF*

Jan 2025 – Present  
 Remote

- Led end-to-end development of scalable web applications using Next.js, TypeScript, Prisma, and Node.js (Express), following Agile methodologies.
- Designed and executed robust backend architectures, improving data processing efficiency by 30%.
- Developed and optimized RESTful APIs, reducing response times and enhancing system reliability.
- Collaborated with cross-functional teams to deliver user-centric solutions and improve application performance.

**MERN Developer Intern**  
*AuthorityMartMedia*

Feb 2025 – Apr 2025  
 Remote

- Built a MailVerify tool for verifying email addresses, including a user-friendly interface and plugin integrations.
- Integrated third-party services (Zapier, Mailchimp, Moosend) by reviewing and working with their documentation.
- Led frontend development and collaborated on backend integration for seamless functionality.

## EDUCATION

---

**Guru Gobind Singh Indraprastha University**  
*Bachelor of Technology*

2023 – Present  
 CGPA: 8.914

## AWARDS & CERTIFICATIONS

---

- **SIH 2024 Runner-Up** – National Smart India Hackathon
